## SUMMARY

I'm a Full Stack Developer with over 11 years of diverse experience in the computer software industry. My background includes expertise in DotNet technologies, cloud services, and modern development practices. I have contributed to projects across various domains such as healthcare, e-commerce, and logistics. I am passionate about delivering high-quality software solutions through clean code and innovative designs

## SKILLS

.NET 8	C#	MeditR	KeyCloak	Dapr	GRpc	Trivy	Azure DevOps	Solution Designing	Audit Logging
HotChocolate	GraphQL	AutoFaker	SonarQube	Veracode	Checkmarx	DDD	Java	Spring Boot	
Azure (App Services, Key Vault, CosmosDB, Azure DataFactory, Function)				Microsoft AI Services			xUnit	EKS	Grafana
Agentic AI Architectures		AWS (Lambda, API Gateway, IAM, etc.)			Databricks	Unity Catalog	Helm	Angular 15	
APIM	Azure Front	TypeScript	MSSQL	Cassandra	DynamoDB	Redis	Docker	Kubernetes	CI/CD
Bicep	Terraform	ArgoCD	Jenkins	Spinnaker	Pub/Sub	Kafka	RabbitMQ	Azure Service Bus	
Application Insights		Git	Jira	Confluence	Figma	LucidChards	Miro	Agile methodologies	

## KEY ACHIEVEMENTS

-  **Cost Optimization Expert**  
Reduced costs 20% by optimizing Azure usage across all services.
-  **Key Management Expert**  
Developed encryption suite improving data security using BYOK.
-  **Component Champion**  
Designed, architected, and written 98 reusable component.
-  **Streamlined Deployment**  
Enforced CI/CD pipelines, accelerating deployment times by 30%.
-  **NextGen Enabler**  
Developed reusable libraries as part of the platform-common enablement initiative for the organization.
-  **Shout-Out - Tavisca**  
Received Shout-Out for the month of Nov 2020 while working in Tavisca.

## EXPERIENCE

- 05/2023 - Present** • **Architect / Specialist Software Engineering**   
Pune, India  
**Vanderlande**  
Logistic process automation
  - Spearheading development of AI-driven features on MyVanderlande platform using Microsoft AI services and Databricks.
  - Designed and implemented a Generative AI-powered documentation search system enabling intelligent, context-aware querying across technical documents using RAG pipelines.
  - Developed backend services in Java for document ingestion, vectorization, and secure search operations.
  - Migrated Keycloak from v16 to v22 in Azure App Service (Linux) with containerized MSSQL backend and Application Insights integration.
  - Built secure integration patterns from Azure Functions to Unity Catalog.
  - Automated infrastructure provisioning via Bicep, including App Services, Key Vaults, and container registries.
  - Collaborated with stakeholders to ensure message delivery in Azure Service Bus, coordinating republishing strategies.
- 06/2022 - 05/2023** • **Software Architect**   
Pune, India  
**Caizin**  
Software company
  - Increased application design efficiency by {30%} through developing and implementing ready-made framework guidelines.
  - Increased stakeholder clarity by {30%} through detailed visual architecture designs.

## EXPERIENCE

06/2021 - 05/2022

Pune, India

Technical Lead

**GoKloud**

Cloud management company

- Improved code quality by {15%} by implementing standardized clean code practices across {5} product teams.
- Improved product code quality by {25%} by overseeing architectural decisions and implementing coding standards.

03/2021 - 06/2021

Pune, India

Consultant

**MediaAgility**

AI and ML technology provider

- Owned design, build and implementation of end-to-end product

07/2019 - 03/2021

Pune, India

Sr. Full Stack Software Developer

**Tavisca, A JPMorgan Chase & Co**

Loyalty and travel technology company

- Developed encryption suite improving data security for {5} clients, including UI/SDK with BYOK and key management.
- Created PCI UI as product, also involved in PCI Tokenization project.
- Modified existing implementation of Monotone into Nextgen-Monotone, and migrated it into Kubernetes.

10/2017 - 06/2019

Pune, India

Full Stack Software Developer

**UPS Logistics PVT LTD**

Logistics and transportation company

- Designed, architected, and wrote front end application using AngularJs with 98 reusable components
- Optimized service layer, request queues, and SQL data model to handle request load of 20,000-40,000/sec during flash sales
- Modernized legacy applications originally built-in class asp.net to AngularJs, MVC5, API, EF6

06/2016 - 10/2017

Pune, India

Software Developer

**LogicalDNA Solutions PVT LTD**

Software development company

09/2015 - 05/2016

Pune, India

Software Developer

**Econsign Soft**

Software development company

06/2014 - 08/2015

Pune, India

Software Developer

**Noetic Systems PVT Ltd**

Software development company

## CERTIFICATION

**AZ-305: Azure Solutions Architect Expert**

Microsoft

**AZ-400: Azure DevOps Engineer Expert**

Microsoft

**AZ-204: Azure Developer Associate**

Microsoft

**AI-102: Azure AI Engineer Associate**

Microsoft

**AZ-104: Azure Administrator**

Microsoft

**AI-900: Azure AI Fundamentals**

Microsoft

**Databricks Fundamentals Accreditation**

DataBricks

**Certified Kubernetes Administrator with Practice Tests**

Udemy

## EDUCATION

06/2014 - 05/2016

Pune, India

Master of Science: Computer Engineering

**Pune University**

06/2011 - 05/2014

Pune, India

Bachelor of Science: Computer Engineering

**Pune University**
